ROHIT KIRTI

+918825220737 | rohit.kirti1219@gmail.com | <u>Linkedin</u> | <u>Github</u> | <u>Portfolio</u>

Front-End Developer proficient in React.js, HTML, CSS, JavaScript and Typescript committed to enhancing business outcomes through innovative UI/UX solutions. Proficient in coding, design, and user-centered thinking. "I'm enthusiastic about learning and ready to contribute to cutting-edge projects.

EXPERIENCE

FunctionUp | Frontend Developer   **02/2023 - Present**

- Conducted code reviews and applied best practices, resulting in a 15% reduction in code-related issues, thereby enhancing overall code quality.
- Collaborated closely with UI/UX designers to implement pixel-perfect designs, leading to a 20% increase in user satisfaction scores.
- Actively participated in weekly sprint planning and retrospectives, contributing to a 10% improvement in project delivery efficiency and client satisfaction.
- Spearheaded the adoption of responsive design principles, resulting in a 25% increase in mobile user engagement and a more inclusive user experience.
- Assisted in onboarding new team members, offering mentorship and training in front-end technologies, resulting in a 40% reduction in the onboarding time for new developers.

EDUCATION

- **Alliance University, Bengaluru**   **2017 - 2021**
  Bachelor's of Technology | Mechanical Engineering   77.7%

- **D.A.V. Public School**   **2015 - 2016**
  Intermediate (PCM)   78%

SKILLS

- HTML
- Typescript
- SASS/SCSS
- CSS
- React JS| React TS
- Tailwind CSS
- JavaScript
- Redux | Redux Toolkit
- Git

PROJECTS

- **Portfolio Website** | <u>github</u> | <u>Deployed</u>

  - Engineered a captivating 3D portfolio website using React, React Framer Motion, Three.js, and React Three Fiber to provide an engaging and interactive user experience.
  - Elevated user engagement through the integration of interactive 3D elements and animations, resulting in a seamless and responsive UX design.

- **Kanban Board** | <u>github</u> | <u>demo</u>

  - Contributed to the creation of an adaptable Kanban board web application, fostering efficient task and list management and improving the overall project workflow.
  - Orchestrated the architectural design and development of a dynamic Kanban board web application, leveraging a versatile tech stack encompassing React.js, HTML, CSS, JavaScript, Material-UI, react-router, Recoil, and React-beautiful-dnd.

- **Real-Time Chat App** | <u>github</u> | <u>demo</u>

  - Developed a real-time chat application using React.js, HTML, CSS, JavaScript, socket.io, express, and CORS.
  - Enabled multiple users to join a room and chat in real time.

- **Gym Website** | <u>github</u> | <u>demo</u>

  - Engineered a user-friendly Gym website with a focus on pixel-perfect designs, leading to an exceptional 20% improvement in user satisfaction scores.
  - Successfully implemented an intuitive and secure registration and login system, enhancing user onboarding and reducing friction during the process.
